About Eastpointe Properties

Eastpointe Properties is a top notch real estate brokerage firm headquartered in Chelsea, NY. The company has been serving the needs of real estate clientele in every Manhattan neighborhood for over 10 years. It is one of the fastest growing full-service property brokerage firms in the city.

Project Requirement

The client required a totally custom website through which it could showcase its properties. They also required an architecture in which multiple websites could be created.

The Challenge

Unique Architecture: The client required an architecture on which multiple websites could be hosted.

Database-driven Website: The client wanted a database driven website to manage web content including images through a user friendly CMS.

Our Solution

RiaEnjolie designed an attractive website for the company to meet its intended goals. Multiple website creation architecture was created. Each site was differentiated by its agency type. We also created a functionality for managing property features, images and property search.

Key Features

- Database driven dynamic website
- Attractive and engaging layout
- Property search feature
- Property print view and picture tool
- Login and property registration for agents
